**Date:** 1/27/02 4:17pm  
**Subject:** Microsoft hearings

To whom it may concern,

I believe that the proposed settlement with Microsoft should go forward as agreed upon. The competition should leave them alone, if they, the competition can do a better job of developing software then they should get on with it. Leave the people alone who have proven they have the smarts and resourses to do the job!

Sincerely,  
Oscar A. White
